ANOTHER MILLION IS VOTED

BY THE HOUSE FOR THE FRISCO SUFFERERS.

The President Senis a Message Asking for \$1,500,000 for Rellef in Addition to the \$2,000,000 Already Appropriated, and it Will Doubtless Be Granted

WASHINGTON, April 21 .- A further appropriation of \$1,900,000 was made to-day by the House of Representatives for the relief of sufferers by earthquake and fire in California. President Roosevelt sent a message asking an additional \$1,500,000 to the \$2,000,000 already voted, and it will doubtless be granted.

At the opening of the session of the House of Representatives to-day Mr. Tawney (Rep., Minn.) asked and obtained unanimous consent for the immediate consideration of a joint resolution increasing the appropriation for the relief of San Francisco sufferers to be dispursed by the Secretary of War to \$1,000,000.

Explaining why he permitted the resolution to come before the House, Minority Leader Williams said:

"Mr. Speaker, this is one of those emergencies which ought to override all of our preformed resolutions, and I shall therefore interpose no objection."

Secretary Taft's letter to President Roosevelt, setting forth the conditions prevailing at San Francisco and the consequent necessity for increasing the appropriation, was read, and the joint resolution was agreed to. The President's message, asking addi-

tional appropriations for the relief of earthquake and fire sufferers on the Pacific coast, was afterward read and referred. At 2:20 o'clock the House adjourned. To the Senate and House of Representatives:

I submit herewith a letter of the Secretary of War, with accompanying documents, including a form of a resolution suggested for presage by the Congress. This letter reters to the appalling catastrothe which has betallen San Francisco

and neighboring cities, a catastrophe more appalling than any other of the kind that has befallen any portion of our country during its history. I am sure there is need on my part of no more than a suggestion to the Congress in order that this resolution may be at once passed. Lut I urge that instead of appropriating a further sum of \$1,000,000, as recommended by the Secretary of War, the appropriation be for \$1,500,000. The supplies airea y delivered or en route for San Francisco approximate in value \$1,500,000, Francisco approximate in value \$1,500,000, which is more than we have the authority in law as yet to purchase. I do not think it safe for us to reckon upon the need of spending less than \$1,000,000 in addition. Large sums are teing raised by private subscription in this country, and very generous offers have been made to assist us by individuals of other countries, which requests, however. nave been made to assist us by individuals of other countries, which requests, however, I have refused, as in my judgment there is no need of any assistance from outside our own borders—this refusal, of course, in no way lessening our deep appreciation of the kindly sympathy which has prompted

The detailed account of the action of the The detailed account of the action of the War Department is contained in the appendices to the letter of the Secretary of War. At the moment our concern is purely with meeting the terrible emergency of the moment. Later I shall communicate with you as to the generous part which I am sure the national Government will take n meeting the more permanent needs of the situation, including, of course, rebuilding the great governmental scructures which have been destroyed.

I hope that the action above requested can be taken to-day.

The White House April 21, 1903.

Secretary Lafe's letter to the President.

Secretary Lafe's letter to the President MY DEAR MR. PRESIDENT—The situation in San Francisco is such as to require an additional appropriation from Congress to meet the necessities of the people of that stricken city who are immediately in need of shelter and food. The War Department has rendered all the assistance possible, beginning its orders as soon as the first telegram was received from Gen. Fu ston, about midnight of the 18th inst. Indeed a telegram was sent by Assistant Secretary Oliver to Gen. Funston immediately upon the receipt of the news of the earthquake, on the morning of the 18th, directing him to render all assistance rossible. From the night of the 18th of April all the available stores of the army, of three departments, have been used for relief purposes, DEAR MR. PRESIDENT-The situation the night of the 18th of April an the available stores of the army, of three departments, have been used for relief purposes, assuming that the action of this department would be ratified by Congress in accordance with precedents in similar cases.

The memorandum of the General Staff

The memorandum of the General Stall which accommanies this letter shows the telegrans received from Gen. Funston, which gradual developed the extent of the terrible diaster and increased the amount of supplies of every kind needed.

All subsistence and quartermaster's supplies, all medical stores of every kind, which were in the minitary depots in San Francisco were destro en except the local supplies for the troops stationed at the post of the Presidio at San Francisco.

Accordingly, everything had to be or-

the troops stationed at the post of the Presidio at San Franci co.

Accordingly, everything had to be ordered from a distance. There are now on the way, by special extress trains, from every available and convenient point where they were stored, 90,000 ratious, which means the rations for 900,000 soldiers for one day. The value of this extinuis sestimated by the Commissary-General to be \$138,000. Two hundred thousand of these rations have probably reached San Francisco this morning, in charge of commissary officers.

The Quahernaster's Department have expressed by special train wall tents, conical tents, hospital tents and storage tents, for the sheder of 100,000 people; 100,000 blankers, 7,500 mattresses, 11,500 bedsacks and 8,000 cots, part of which have already reached San Francisco from the immediate vicinity, and all of which are hastening to the city by special trains, which have been given precedence over passenger trains.

The quartermaster's supplies already delivered in San Francisco, or en route by special express trains in charge of competent mineary quartermasters, amount in value to \$1,031,734,40.

tent minuary quartermasters, amount in value to \$1.031.734.40. The medical cureau of this department has sent five carloads of medical supplies

has sent five carious of medical supplies from St. Louis by express in charge of competent medical officers and hospital stewards. The estimated value of these medical supplies is, 5,000.

It is estimated that the cost of transportation for all these supplies amounts to \$15,000; so that the cost of that which has already been flone in the matter of raliat

\$15,000; so that the cost of that which has already been done in the matter of relief for San Francisco is \$1,429,73 4:

I have the honor to recommend that Congress be requested to appropriate \$1,000,000 more in order to meet the cost already incurred over and above the \$1,000,000 appropriated, and to enable the War Department to purchase such additional supplies as may be needed for the purpose.

The present resolution authorizes the exrenaiture of money for the relief of San Francisco. The suprlies which have been sent have been taken out of the Regulararmy depots and were necessary for the sup-port and use of the army. I respect-fully suggest; therefore, that in the next resolution, which I hope Congress may pass, fully suggest, therefore, that he has resolved in which I hope Congress may hass, specific authority be given to the Secretary of var to use both the \$1,000,000 already appropriated and the amount which may be appropriated in the recommended resolution eiter to pure ass supplies for the relief of San Francisco, or to replace by purchase the surplies axen from the Regular arms stores for such relief purposes.

I declose he form of resolution which will accomplish the result sought.

I study in memoranou of the Chief of Staff, the report of the Quartern aster-General and the report of the Commissary-General, with their, accompanying telegrans and estimates. I also attach a memoran una from the Surgeon-General as to his dictures and needs.

quary-master's and medical stores assemed at in the depot at San Francisco for use at the Pacific roots and in the Philippines will require, a very considerable do envestmate, in order that they, in referr to the stores now being used

for the relief of San Francisco, may be replaced.
The loss may be approximated as fol-

\$3.445.863 I shall submit estimates for these at a ter date. Very respectfully yours,
WILLIAM H. TAFT, Secretary of War.

DESPATCHES FROM FUNSTON. Situation in the City Described by the

General in Command. WASHINGTON, April 21.-The following was received from Gen. Funston at 5:30

A. M. to-day "Fire is making no progress to the wes from Van Ness avenue. West wind of con-siderable force beginning. Indications are that all that part of the city south of Var Ness avenue and north of bay will be de-

stroyed. "Some considerable apprehension is felt as to the post at Fort Mason, but it is believed we can save it.

"Weather continues fine and warm; prac tically no suffering from the cold. "It will be impossible to establish proper

sanitary conditions; much sickness must necessarily be expected. "If the city to the west now standing

remains intact there are many good buildings that can be used as hospitals. "The water supply is encouraging. The Spring Valley water people believe they

can deliver from 10,000,000 to 12,000,000 gallons daily. This, with other sources not mentioned, will prevent famine." A despatch from Gen. Funston to the War Department, received at 2:20 A. M.

to-day, said: "At this hour-8:30 P. M.-Hard and probably successful fight being made to save western part of the city. Fort Mason, where army headquarters have been estab-

lished, may go, but we will know in an hour. "Supplies arriving and are being distributed to homeless people camped in parks, military reservations and vacant spaces. Troops, police and firemen almost exhausted by three days' terrible work. Conduct of people in general has been admirable, though in some cases

looters have been shot. "Admiral Goodrich haslanded all available men from fleet and placed under my orders. "Seventy cavalry, under Major Benson, guarding ruins of banks, where there are millions in vaults.

"Impossible yet to learn individuals for whom you inquired. Most casualties were in poorer districts, south of Market street Not many killed in better portion of city."

A despatch to-night from San Francisco to the War Department says that the troops at the Presidio have been deprived of their barracks, which have been turned over to the women and children. Fifty thousand people have found refuge there.

A telegram to Surgeon General O'Reilly of the army from Chief Surgeon Torney at San Francisco says: "Very few men of the army have been injured; only one officer, Lieut. Pulis, Coast

Artillery. He was victim of premiture dynamite explosion and suTered a depressed fracture of the skull and an incised wound on left jugular vein. He has recovered consciousness since surgical operation and is doing well. Request that information relative to army be disseminated." This morning the following was received

from Gen. Funston: "So far as known no casualties among army and navy people except Lieut. Pulis, seriously injured during fire. Please cable Manila."

The following despatch has been received by the Quartermaster General from Major Devol at San Francisco

"As previously reported recommend transport Sherman deliver passengers, except sick, at San Francisco and proceed same date to Seattle, to be despatched to Manila from there Thorough investigation yesterday shows that Union Iron Works, Risden Iron Works and United Engineering Company will be able to sume repair work in very short time. Im possible, however, to secure necessary supplies for Sherman here at this time. Can give full advices before next transport arrives. Still some danger from the fire on water front, Burning badly in west end last night. Transport dock might possibly be destroyed, but not probable. Have wired you every day, but doubtful if message went through. Ample supplies are arriving, but great difficulty is to get them distributed

"DEVCL. Depot 'Quartermaster " The transport Sherman, to which reference is made in the telegram, left Honolulu for San Francisco on the day of the earth. quake in San Francisco, without knowledge of what had happened.

MOVING THE RELIEF TRAINS. All Roads Crowded - Base of Supplies Being Made at Sacramento

CHICAGO, April 21 .- The railways terminating in San Francisco and their Missouri-Chicago connections report that scarcely anything is being moved on their roads, except relief trains bound west.

The Southern Pacific and the Santa Fé both are crowdel with relief business. Flour loaded at Kansas City, couches and tents from Kanasha, meats from Packingtown, are simply instances of the mighty outpouring from nearly every city of the land. The Western roads are preparing to take care of trains from Boston, news of whose starting reached Chicago officials

The question worrying the traffic managers is not how to hurry the relief trains gross the continent, but how to dispose of the material after it has arrived.

The Milwaukee and St. Paul records are all reported safe. The Southern Pacific officials in Chicago had reports to-day which cheered them. Assistant General Manager McCormick said that the destruction of Southern Pacific railway property was comparatively slight. He understood that Sacramento was being made the base of supplies, and that the railway situation

was thoroughly in hand. General Passenger Agent Lomax of the Union Pacific left for Omaha to-day after consulting with officials here regarding

the San Francisco traffic problem. E. H. Harriman's special train across the continent to San Francisco is making a fast but not a record breaking run, as it is not the desire to interfere with the regular movement of other trains. The train is making better time, however, than the Overland Limited. It reached Ogden, Utah, about 10 o'clock this morning, having male the run there without special inci-dent. R is expected to reach Oakland, Cal.,

by noon to-morrow. PUBLISHER'S CLOSE SHAVE.

Henry Pittock of "The Oregonian" Barely

Escaped Falling Walls. OAELAND, Cal., April 21.-Henry Pittock, publisher of the Portland Oregonian, was in the Occidental Hotel in San Francisco when the crash came, having arrived two hours earlier. Mr. Pittock was not injured by the falling walls, but his suit case lying open beside his bod was flattened like a pan cake. He walked the streets during Wednesday and Wednesday night, but found quarters on Thursday and came here to day. on Thursday and came here to-day.

RED CROSS RUSHES SUPPLIES.

TRAINLOADS OF PROVISIONS SHIPPED TO SAN FRANCISCO.

Secretary Taft Appoints Dr. Devine Special Agent for the Work to Be Done There -Merchant Vessels and a Transport Are to Carry Food From Tacoma.

WASHINGTON, April 21 .- Secretary Taft, president of the American Red Cross, today issued the following address:

"To THE PUBLIC: As president of the American National Red Cross I have appointed Dr. Elward Davine special agent of the Red Cross work to be done in San Francisco. I am in receipt from Mr. Devine of a telegram in which he suggests that notice of all available relief funds and all shipments for relief, whether consigned to the Red Cross or not, be sent to him. Address 'Red Cross, San Francisco.'

"That it is exceedingly important to centralize this information I concur with with Dr. Devine's suggestion, and respectfully request those who are engaged in forwarding either relief funds or shipments for relief to notify Dr. Devine of the fact and of the name of the consignee.

"The War Department is in constant receipt of requests that messages of inquiry be sent concerning the welfare of persons known to be in San Francisco. I have communicated with Gen. Funstor with respect to some of these, and have learned from him that it is absolutely impossible for him or his subordinates to locate individuals at this time.

"The confusion is so great that these, who are naturally in distress because of a lack of information with respect to friends or relatives in San Francisco, must nevertheless await the settlement of conditions before it will be possible for them to hear. The necessary work of organization in order to feed and shelter the people is occupying the complete attention of all the army of Gen. Funston and all the force that he can command, and it seems impossible to preserve any discipline or order if messengers are permitted to enter the

lines without restriction." The work of the National Red Cross is most successful and thousands of dollars and hundreds of carloads of provisions

and hundreds of carloads of provisions are being rushed toward San Francisco, not only by the executive committee here but through the State organizations. Only a portion of the total amount given to the Hed Cross has been reported to the Washington headquarters. The Red Cross his rejorts from Seattle and Los Angeles that the food supply is almost exhausted.

Miss Mabel Boardman, in charge of the Red Cross work here, telegraphed Gen. Function asking if he desired funds. To-day a reply was received that money is useless, there being nothing to buy.

The following consignments of provisions are now on their way to the West:

Two carloads of provisions from the citi-

Two carloads of provisions from the citizens of Cheyenne. Carload of eggs from the Chicago Butter

and Egg Board. Trainload of provisions from citizens of St. Paul. Two thousand dollars worth of canned vegetables from Waterloo, la.

Three carloads of provisions from Colorado Springs, Col. The Mayor of Wilmington, N. C., tele-The Mayor of Wilmington, N. C., telegraphs that \$4,000 has been contributed by the people there. American diplomatic establishments abroad have informed Americans that they will receive funds for San Francisco and transmit them to the United States. Large sums are coming to the State Department through these agencies.

agencies.

The Red Cross received a report to-day that a carload of condensed milk has been shipped from St. Louis to San Francisco. It is expected that this shipment will do tremendous good, especially among the babids.

babies.

At Tacoma, Wash., three merchant vessels are being laden with provisions. They will depart within a day or two. It will take three days more for them to get to Sair Francisco. The transport Burnside, owned by the War Department, is also loading at Tacoma. The various

Department of the army are working hand in hand with the Red Cross and makhand in hand with the Red Cross and making purchases with the funds sent by the Red Cross to Washington and other points.

The Red Cross has rushed orders to Denver and Seattle directing that milk be sent to San Francisco immediately. This was done on account of reports that scores of babies were in danger on account of the lack of milk.

of the lack of milk.

Commissary-General Sharpe to-day received the following despatch from Major Krauthoff, the army commissary officer in San Francisco who has charge of the distribution of Government supplies to the

suffering of that city:
"Bottled water not needed. Water mains

"Bottled water not needed. Water mains being repaired, which means a sufficient supply. Considering everything, affairs are in good condition. Large issues of stores made to-day to indigents. Rations from Vancouver Barracks, Washington, expected Saturday (to-day). Fire is practically under control.

C. L. Magee, secretary of the American Red Cross Society, who has established headquarters in the War Department, received to-day the first despatch that has come from William W. Morrow, president of the California branch of the organization, since San Francisco was visited by the earthquake. Judge Morrow said:
"We are securing immediate relief. Red

the earthquake. Judge Morrow said:

"We are securing immediate relief. Red
Cross should be ready to render future relief
for the poor, who have lost everything."

Secretary Magee received to-night a
message from Mayor Schmitz. It was in
response to one forwarded to the Mayor,
informing him of the appointment by the
Secretary of War of Dr. Devine of New
York as special Red Cross agent in California. The Mayor wired as follows:

"Dr. Devine's services will be of immense
benefit. Your cooperation and sympathy benefit. Your cooperation and sympathy deeply appreciated."

HARTFORD COMPANIES TO PAY. Insurance Companies Will Draw on Their Surpluses-Will Have Enough.

HARTFORD, April 21 .- Millions of dollars will be paid by the local insurance companies to San Francisco firms and individuals for fire losses. The Hartford companies are hit hard by the disaster, but all the heads of companies say that the losses will be paid in full.

"You may say," said President William B. Clark of the Ætna Insurance Company, that we have approximately \$4,000,000 liability in the city of San Francisco, and if every dollar is lost we can pay it from our surplus and have a handsome surplus left." The Etna had on January 1 a net surplus of \$7,005,010.93 and a surplus as to policy-holders of \$11,086,010.93, with assets of \$16,-

holders of \$11,050,010.25, with accept of \$10,000,000.

President George L. Chase of the Hartford Fire Insurance Company said::,"I believe our surplus is intact and that it considerably more than covers our losses in San Francisco. Two-thirds of our iability in that city is on dwellings the bulk of which is outside the burned districts."

HAVE TO LEAVE POST OFFICE. The Building Is Too Badly Damaged to Continue in Use.

WASHINGTON, April 21,-Second Assistant Postmaster General Shallenberger received a telegram to-day from Supt. Stevens of the railway mad service at san Francisco in which he and that the post office build-ing at San Francisco was badly damaged and that the postmarter was compelled to move his office force to other quarters

Saks & Company
